

### **Goal for Use Reduction and Actions Available under Stage 1, Mild**

The goal for water use reduction under Stage 1, Mild, is a five percent reduction in the use that would have occurred in the absence of drought contingency measures. The Town Manager, or official designee, may order the implementation of any or all of the following actions, or other measures, as deemed necessary:

- Request voluntary reductions in water use by the public and by wholesale customers.
- Avoid outdoor watering from 5 am to 8 am and from 10 am to 6 pm daily.
- Increase public education efforts on ways to reduce water use.
- Review the problems that caused the initiation of Stage 1.
- Notify major water users and work with them to achieve voluntary water use reductions.
- Intensify efforts on leak detection and repair.
- Reduce non-essential city government water use.
- Reduce town government water use by 5% for landscape irrigation.
- Recommended for all Town of Prosper water users the following water use schedule for landscape sprinkler systems and outdoor water usage during the normal growing period:

#### **Allowed Landscape Water Days**

**Retail, Business, Industrial, and Commercial Customers**

**Monday and Thursday**

**Schools, Place of Worship, Parks, Designated Open Space, Medians/ROW, and other Non-Residential Users including HOA areas**

**Monday and Thursday**

**Last Digit of Residential Address: Even**  
(Includes duplexes, town homes, and apartments)

**Tuesday and Saturday**

**Last Digit of Residential Address: Odd**  
(Includes duplexes, town homes, and apartments)

**Wednesday and Sunday**

Suggestion for all Town of Prosper water users the following recommendations during normal dormant months:

- Use soaker hoses to maintain foundation moisture
- Irrigate landscaping by hand with garden hoses
- Operate sprinkler systems only once per week
